New E-Resources

3 New E-Resources! Members now have access to three new databases from Rosen Digital. These resources are Teen Health and Wellness, Digital Literacy, and Financial Literacy - funded with ARPA funding from the State Library.

Below are the URLs that have been customized for our library that will allow patrons access from outside the library. You do not have to enter your library card number or a password to access from home. All you need to do is click on the link!

Youth & Teens

The Return of Online Storytime

As we begin a new school year, the children's area is ready to resume storytime. Due to our continued caution with the increased number of Covid cases, storytime will only be held online for the foreseeable future. Look for Mr L to post a new video storytime on Facebook every Friday at 10am.

Additionally, our friends with KCOM-UNICEF and a few Truman students may join us in producing additional storytime videos. While these will not occur weekly, guest reader videos will appear on our Facebook page on Wednesdays at 10am.

YMCA Children's Meal Program at the Library

The YMCA continues its efforts to help the children of the community that may lack easy access to healthy, affordable food. This school year, the YMCA will be offering a weekly meal program for children ages 3-17. The library will be a designated location for children to pick up a weekly food bag. The library will have a limited supply of these meal bags available on Saturday mornings from 10:30-11:30am. Help spread the word to those who may be in need.

Move Over Summer!

Here Comes the FALL READING PROGRAM!

While we may not be offering programs in person, we can still encourage our young readers to keep reading. From September 1 to December 31st, the library will offer a Fall Reading program for ages 0-17. During this time, our young readers are asked to mark any day that they read for 15 or more minutes. For every three weeks worth of reading that is done, incentives will be earned.

Readers can stop by and pick up a paper copy of our Fall reading log or track their reading for free on Beanstack. Beanstack accounts are free and can be signed up for online at adairco.beanstack.org or with the Beanstack tracker app. Happy reading!

Dial-A-Story

Don't forget that Dial-A-Story is available anywhere you go. Call our toll-free number at 660-234-9599 for ten new children's stories and a new juvenile chapter book every month. This month join Mr L as he shares one of his all-time favorites: Holes by Louis Sachar.

3D Printers and Lithophanes

We have our 3D printer out and have been testing it with a new type of print that we discovered: lithophanes. A lithophane is a 3D printed version of a photograph in which the picture is seen through the filament when held in front of a light source. Stop by the children's area and check one out!

CARES Grant

ACPL received a CARES grant to increase wireless internet to the parking lot and update old computer equipment.

Secretary of State Ashcroft is pictured below with board member Adam Dorrell and library staff.

Security System

We have installed new security gates at the library to prevent items from leaving the building without first being checked out. If you set off the alarm just come to the desk and we will help you.

Book Sale

Stop by on Saturday, September 11 for our Friends of the Library monthly used book sale! The sale will be held outdoors from 10 am – 3 pm and will be cancelled if it rains.

We also have books for sale in the entry of the library that you can shop anytime during open hours.

Moon Viewing

We will be having another telescope Moon Viewing Night on September 11 from 8-10 pm (weather permitting). Come out and enjoy the night sky!
