

# Slime Recipes

## Liquid Starch Slime

- 1/2 C Elmer's glue (white or clear)
- 1/4 C Liquid starch
- 1/2 C Water

Optional: Food coloring, glitter, confetti, etc.

Instructions:

1. In a bowl, mix water and glue well to combine completely.
2. If using, add food coloring, glitter, confetti, etc. at this time
3. Add liquid starch. Stir until you have a gooey ball of slime.
4. Knead slime until no longer stringy.

Tip: Slime will get less sticky the more you knead it!

## Fluffy Slime

- 1/2 C Elmer's glue - white
- 3 C foaming shave cream (ex., Barbasol)
- 1 1/4 - 1/2 teaspoon baking soda
- 1 Tablespoon saline solution (must contain sodium borate and boric acid)

Instructions:

1. Measure 3-4 cups shaving cream into a large bowl and add food coloring.
2. Add glue and mix well.
3. Add up to 1/2 teaspoon baking soda and mix.
4. Add saline solution and start whipping. Once incorporated, remove from bowl and continue working with your hands.

Tip: Slime will get less sticky the more you knead it!

## Oobleck

- 2 C Corns starch
- 1 C Water

Optional: food coloring

Mix corn starch and water. If using food coloring, mix into the water before adding corn starch.
