

What is Mango?

Mango is an online program that teaches you a new language through conversational methods. Using memory building and critical thinking exercises, Mango helps you learn the most commonly used phrases and words first so that you may quickly learn a new language.

The Mango Languages program is free to use for Fox Lake District Library patrons. Once an account is linked to the library, all features will be accessible to patrons.

How long does it take to learn a new language?

The program is self-paced and the time it takes to become fluent in a new language will depend on each participant. Each lesson takes approximately 20 -40 minutes to complete, and if practiced consistently, one unit can be completed in 3 months.

Can I only use Mango at the library?

No. The Mango Languages program can be accessed from any computer, smart phone, or tablet with internet connection.

Can I delete languages?

Yes. In the home screen, click on the “Change Language” in the upper left hand side of the page. Once the panel opens up, you can click on the “X” next to any language you want to delete.

For more information, stop by the Adult Reference Desk on the 2nd floor of the Fox Lake District Library, or check out the Help section on the Mango Languages website.
